

EKC, Inc.
E-SRF Event Reporting
Release 2.1 (build LE00450)
Documentation Upgrade

Documentation errors and enhancements that were incorporated into the Event Reporting System at 2.1 (build LE00450) will require an entire replacement of the product documentation.

Your corporation in this matter may save you needless problems or calls to EKC Technical Support for assistance.

**Verify your base publications
before applying this upgrade.**

Do not attempt to run this product without the proper documentation.

Your documentation may have been shipped as hard copy paper manuals or on a CD-ROM. If you do not have the appropriate base publications required by this upgrade, please contact EKC Technical Support for assistance.
